To Our Valued Clients,

Pace will implement a general rate increase (GRI) of 5.9% applicable to proprietary base rates, pallet rates and minimum charges Effective July 15, 2024. This GRI will help offset the rising costs of new equipment, continued investments in technology, employee health care coverage, and motor truck insurance. Pace will continue its commitment of meeting our clients' expectations with the highest level of service you have been accustomed to for the past 51 years.

For more information, please contact your Account Executive or Sales@pacemotor.com

Sincerely,

Patrick W. Pacelli
