April 1, 2026

To Our Valued Clients,

Pace will implement a general rate increase (GRI) applicable to pallet rate programs and minimum Air Freight charges Effective April 27, 2026. This GRI will help offset the rising costs of new equipment, motor truck insurance, safety and continued investments in technology. Pace will continue its commitment to meet our clients' expectations with the best possible service at a competitive level as we have done over the past 53 years.
